

## ServiceNow Secure Data Access Script

```
var user = gs.getUser();
if (user.hasRole('hr_admin')) {
    var gr = new GlideRecord('u_employee');
    gr.get('sys_id', 'abc123'); // Fetch employee record
    gs.info('SSN: ' + gr.u_ssn); // Only if user is authorized
} else {
    gs.info('Access denied.');
```
